SUMMARY

Third-year B.E. AI-ML student with a CGPA of 7.6, passionate about building tech that solves real-world problems. Experienced in full-stack development (NextJS, ReactJS, Firebase) and proficient in C++, Python, and Java.

Built projects like Interview Prep AI and FieldRental, tackling challenges like AI integration, internationalization, and weather-based features.

Won 2nd prize at Cognition 2024 (SIESGST), 3rd place in an XR Hackathon at KJ Somaiya, and participated in Mumbai Hacks. These hackathons and paper presentations sharpened my real-time problem-solving, technical presentation, and on-the-spot coding skills.

Consistent competitive coder, which has strengthened my algorithmic thinking and debugging abilities under pressure. Always learning, always building.
